

Tools — Finance

Stock quotes, historical bars, fundamentals, options, recommendations, and currency rates. Free Yahoo Finance is the default provider; Alpha Vantage can be configured in `ragent.json`. See `docs/howtos/finance.md` for provider details.

Tool	Description
<code>stock_quote</code>	Latest stock quote (price, volume, change).
<code>stock_history</code>	Historical OHLCV bars.
<code>stock_fundamentals</code>	Market cap, P/E, EPS, dividend yield, sector.
<code>stock_search</code>	Search ticker symbols by company name.
<code>stock_options</code>	Options chain (calls and puts).
<code>stock_recommendations</code>	Analyst recommendation trends.
<code>currency_rate</code>	Current exchange rate between two currencies.
<code>currency_history</code>	Historical exchange-rate OHLCV bars.

Visibility switch: `finance`.

`stock_quote`

Latest quote for a ticker (price, open, high, low, close, volume, change).

Arguments

Argument	Type	Required	Description	Typical value
<code>symbol</code>	string	yes	Ticker symbol	"AAPL"

Example: `stock_quote symbol="AAPL"`

`stock_history`

Historical OHLCV bars. Short periods round up to the smallest supported Yahoo range (1 month).

Arguments

Argument	Type	Required	Description	Typical value
<code>symbol</code>	string	yes	Ticker symbol	"MSFT"
<code>period</code>	string	no	Lookback period: 1d, 5d, 1w/1wk, 1mo, 3mo, 6mo, 1y, 5y, max	"3mo"
<code>interval</code>	string	no	Candle interval: 1d, 1wk, 1mo	"1d"

Example: `stock_history symbol="MSFT" interval="1d" period="3mo"`

stock_fundamentals

Market cap, P/E, EPS, dividend yield, 52-week range, sector.

Arguments

Argument	Type	Required	Description	Typical value
symbol	string	yes	Ticker symbol	"AAPL"

stock_search

Search ticker symbols matching a company or asset name.

Arguments

Argument	Type	Required	Description	Typical value
query	string	yes	Company or asset name	"Microsoft"

stock_options

Fetch the options chain (calls and puts).

Arguments

Argument	Type	Required	Description	Typical value
symbol	string	yes	Ticker symbol	"AAPL"
expiration	string	no	Expiration date	"2026-03-20"

stock_recommendations

Analyst recommendation trends (strong buy ... strong sell counts by period).

Arguments

Argument	Type	Required	Description	Typical value
symbol	string	yes	Ticker symbol	"AAPL"

currency_rate

Current exchange rate between two currencies.

Arguments

Argument	Type	Required	Description	Typical value
base	string	yes	Source currency code	"USD"
quote	string	yes	Target currency code	"EUR"

Example: `currency_rate base="USD" quote="EUR"`

currency_history

Historical exchange-rate OHLCV bars for a currency pair.

Arguments

Argument	Type	Required	Description	Typical value
base / quote	string	yes	Currency pair	"USD" / "EUR"
period	string	no	Lookback period	"3mo"
interval	string	no	Candle interval: 1d, 1wk, 1mo	"1d"
