Tools — Planning

Delegate read-only analytical work to the plan agent.

Tool	Description
`plan_enter`	Delegate to the plan agent for read-only analysis.
`plan_exit`	Exit plan mode.

Visibility switch: `plan`.

---

plan_enter

Enter plan mode / delegate analysis to the plan agent. The plan agent is read-only: it explores the codebase and produces a structured implementation plan without making any changes.

Arguments: none required — pass the planning request via the session prompt.

```
plan_enter
```

---

plan_exit

Exit plan mode and return to normal editing.

Arguments: none.

```
plan_exit
```
