Tools — Initiatives

Durable, long-lived project goals with milestones that persist across sessions and compaction.

Tool	Description
`initiative`	Manage durable initiatives with milestones.

---

initiative

Create, read, update, checkpoint, and close initiatives.

Arguments

Argument	Type	Required	Description	Typical value
`action`	enum	yes	`create`, `read`, `update`, `checkpoint`, `list`, `close`	`"create"`
`id`	string	all actions except `create`/`list`	Initiative id (`create`: optional short slug, auto-generated if omitted)	`"api-v2"`
`title`	string	yes for `create`	Short goal title	`"Ship API v2"`
`description`	string	no	Detailed description / success criteria	—
`milestones`	array	no	Milestone titles for `create`	`["design","implement","ship"]`
`milestone`	string	no	Milestone id to mark complete (`checkpoint`)	`"design"`
`progress`	integer	no	Overall progress 0–100 (`update`/`checkpoint`)	`60`
`note`	string	no	Free-text note recorded with a checkpoint	`"Design approved"`
`status`	enum	no	`active` (default), `paused`, `completed`, `abandoned`, `all`; filter for `list`, transition for `update`/`close`	`"active"`
`limit`	integer	no	Max initiatives returned by `list`	`50`

Example:

```
initiative action="create" id="api-v2" title="Ship API v2" milestones=["design","implement","ship
initiative action="checkpoint" id="api-v2" milestone="design" progress=40 note="Design approved"
initiative action="list" status="active"
```
