

Tools — Initiatives

Durable, long-lived project goals with milestones that persist across sessions and compaction.

Tool	Description
<code>initiative</code>	Manage durable initiatives with milestones.

initiative

Create, read, update, checkpoint, and close initiatives.

Arguments

Argument	Type	Required	Description	Typical value
<code>action</code>	enum	yes	create, read, update, checkpoint, list, close	"create"
<code>id</code>	string	all actions except create/list	Initiative id (create: optional short slug, auto-generated if omitted)	"api-v2"
<code>title</code>	string	yes for create	Short goal title	"Ship API v2"
<code>description</code>	string	no	Detailed description / success criteria	—
<code>milestones</code>	array	no	Milestone titles for create	["design", "implement", "ship"]
<code>milestone</code>	string	no	Milestone id to mark complete (checkpoint)	"design"
<code>progress</code>	integer	no	Overall progress 0–100 (update/checkpoint)	60
<code>note</code>	string	no	Free-text note recorded with a checkpoint	"Design approved"
<code>status</code>	enum	no	active (default), paused, completed, abandoned, all; filter for list, transition for update/close	"active"
<code>limit</code>	integer	no	Max initiatives returned by list	50

Example:

```
initiative action="create" id="api-v2" title="Ship API v2" milestones=["design","implement","ship"]
initiative action="checkpoint" id="api-v2" milestone="design" progress=40 note="Design approved"
initiative action="list" status="active"
```
